Pick how long you want us and how many of us you want. That is the whole price. We don't shoot to a number of photos or a number of minutes. You get every frame worth keeping, however many that turns out to be.

Four hours is the ceremony and what surrounds it: the last of getting ready, the ceremony, family portraits, your portraits as a couple, the entrance and the first dance. Eight hours adds the morning and most of the reception: getting ready, first looks, the toasts and the cake. A full day is everything, from hair and makeup to the send-off, up to twelve hours.

Hours past your booked block are $150 per crew member per hour, and you can decide that as late as the week of the wedding. Travel within 60 miles of Snyder is included. 60 to 150 miles is $150. Past 150 miles we drive in the day before and stay the night: $400 for two of us, $600 for four.

WHY A SECOND PHOTOGRAPHER

One photographer is with the bride. The second is with the groom, then on the guests' faces during the ceremony while the first is on the two of you, then on the room during the dances. You get both sides of every moment, not one.

WHY A SECOND VIDEOGRAPHER

With one camera rolling, your film is a highlight film: the best of the day cut to music. With two, we can also deliver the full ceremony, every word, from two angles, and the toasts in full. One camera can't promise that. Two can.

TO BOOK

A 30% retainer holds the date. The balance is due 14 days before the wedding. The retainer is what takes your date off our calendar, so it is non-refundable, but it moves with you once if the date changes. Card, check, or bank transfer. An invoice comes with the signed agreement.

Prints and albums are not included. Vendor meals are appreciated but not required.

Tell me your date, your venue and how long the day runs, and I will send a quote the same day.
